

Accessing additional funding

Accessing additional funding

- Our **guaranteed grant model** is designed to cover 100% of out-of-pocket costs for most patients within each covered disease.
- If your patient uses their initial grant amount before the end of their 12-month eligibility period, they may automatically receive additional funding from the *unguaranteed* portion of their award, based on the availability of funding.
- **To access unguaranteed additional funding, simply submit a claim of any type.**
- There is no need for the patient or provider to make a call to the program or apply for additional funding to access this additional support.

Example: *Breast cancer fund*

- Guaranteed amount = \$3,500
- Unguaranteed additional funding = \$3,000 (based on availability)
- **Maximum award amount: \$6,500**

Current fund list with grant assistance amounts can be found at **TotalAssist.org**.
